“fantasy_ by analogStudios_,” *itch.io*. - [Creative Commons BY 4.0](https://analogstudios.itch.io/fantasy) - <https://analogstudios.itch.io/fantasy>

Clock and Calendar - self-designed

We chose to use libraries and assets with licences appropriate for this project; the Apache 2.0 licence grants a free copyright licence for any type of derivative work. The CC BY licence allows for copying and redistribution given that the creator is attributed and that changes to the asset are documented, and a link to the licence is provided. The websites also mention that the assets can be used in our game once credit has been given.
